

## Better world

Better world is a project of schools in the most marginalized places in Latin America

We create learning offers of artistic and cultural knowledge of Hip Hop and spaces for making visible Hip-Hop artistic skills that motivate our participants to healthy coexistence, peace, union, respect and love in the different territories where we carry out our activities. We reinforce artistic skills and cultural values of Hip Hop with the aim of highlighting the idea of art and culture as a life option in contrast to the criminal dynamics of our territories to contribute to the construction of peace in the same.

To boys, girls between 3 and 12 years old and young people between 13 and 26 years old, inhabitants of the Altavista district.

It is worth remembering that in these territories there are social problems, education, food, recreation, among others.

Note: If any person regardless of their age has the intention or desire to participate in any of our activities, cultural outings, battles or courses are welcome, at Escuela Popular de Hip Hop we open the doors to all people who want to learn and teach.

Popular schools are a response to the traditional teaching model that is taught today in the different educational institutions of the country, where the person who has the knowledge transmits it through strategies, activities and vertical teaching models, locating the knowledge of the person who it instructs him above those who learn. On the contrary, in our popular Hip Hop school a horizontal learning model is used, where all those involved in the learning process contribute and build knowledge based on the needs of each territory and each group; where the most important thing is not to obey but to learn and have fun, and practice what you have learned. Hip Hop is what is taught, not only to practice some of its artistic elements, but about its culture, values, principles, philosophy, spirituality and its role in the world.

Why teach Hip Hop?

- \* Because Hip Hop saves lives.
- \* Because Hip Hop motivates fun and fun in turn motivates learning.

- \* Because the practice of the artistic elements of Hip Hop allows humans to develop their full potential, both mentally and physically.
- \* Because the study and application of the values, artistic elements and principles of Hip Hop allows to awaken in humans' positive behaviors for life in community.
- \* Because Hip Hop is a builder of society under values such as: respect, peace, love, unity and fun.
- \* Because Hip Hop is in the harshest, hostile, difficult, unequal and adverse conditions, showing that among so many negative things the human being can positively stand out and excel with the study and application of Hip Hop.
- \* Because Hip Hop makes people aware of who they are and what they can achieve.
- \* Because Hip Hop motivates the recognition of the territories of its history and its relationship with ours.
