

2000 SMILES

With your help we can achieve our commitment to do everything possible so that each child has a smile on this important date. Christmas is a magical event where with little efforts we can achieve great results.

Christmas is also a date of hope, it is because it offers the opportunity to start over, to celebrate the birth of a child and the rebirth of the world. The lights of the Christmas tree are a symbol of a new sun that will bring light and the joy of a new life. The gifts that the child receives symbolize the "gifts" of the three Wise Men.

This time in the life of a child is so important as it leaves an indelible mark. Who of us does not remember that pleasant feeling and of immense well-being that a gift left us on Christmas night when we were little!

Summary

At Jangelicas we will do our best to give you more of a smile with the Just for a smile project under an inclusive approach with emphasis on meeting the basic material needs of families with children living in Miami Dade, Lee, Monroe y Collier Counties, with the objective of reducing the risk of psychological affectations in children, it is intended to deliver 2000 gifts.

Objective

Reduce the vulnerability of children and the psychological effects that they may suffer during the Christmas celebration.

Justificación

During and after the COVID 19 pandemic, thousands of families lost their jobs and their living conditions changed. All over the world but mainly in the United States of America, there are many families that still suffer the economic and psychological consequences of the pandemic. Children are at risk of psychological damage due to the drastic change imposed by COVID; however, the economic and material condition also turns out to be fundamental in the development of children.

From the above we understand that children regardless of their social conditions, especially those most in need, deserve attention and support to promote the development of their attitudes and skills. In this order of ideas, a child who does not receive gifts at Christmas, compared to the one who receives, will not lose his life, but her emotional development will be subject to seeing what others have and what he does not.

In this order of ideas, it is possible to identify that there are many homes where the economic condition does not allow children to enjoy a gift this year, therefore we propose the Just for a smile project with the intention of bringing more than a toy, giving away a smile to 2000 children.

Population to be benefited

2,000 children from families living in Miami Dade, Lee, Monroe and Collier counties

Problematic

Difficulty of access to economic resources of many families in Miami Dade County to give gifts to children at Christmas

Problematic intervention proposal

Bring 6,000 gifts to children in material conditions of inequality in Miami Date, Lee, Monroe and Collier counties

Estimated budget: \$ 40,000 (\$ 20 per child)
