ANNUAL REPORT

JANUARY, 01 2020 TO DECEMBER,31 2020

The circumstances of the year 2020 forced each of us to resort fully to our strength and determination.

This challenging time taught us to be more united and not leave the most lonely ones alone. What I have constantly witnessed in this past year within Jangelica's family is the best of humanity. We continue to believe that "goodness comes to light ", the organizational approach to unite people to end poverty forever. When giving children and families the ability to excel and prosper, We have seen how goodness endures in the face of any situation. We evidence it in your continuous support and in the perseverance of our children and their families. People who were fit precarious before the pandemic are those that have suffered because of her. But thanks to you, our vulnerable children received life support when they needed it. Economic assistance, psychological and emotional support, food, health and hygiene items - these are some of the ways you helped families and communities whole values-based performance. Our teams in everyone also had a foundation firm to commit to doing our work in service and benefit of the communities. In times never seen before, we increase the percentage of funding for our programs and other forms of humanitarian aid for children. Faced with enormous economic pressure in the United States and other parts of the world, we strengthen the relationship with our taxpayers, collaborating to preserve the bond between them and their children, helping Together, we transform our challenges into opportunities to innovate, be more efficient and increase the impact of our programs. Over an unimaginable period, we show that when we collaborate and seek to create a better future for our children. We always have rewards. A few weeks ago Jasmany Naranjo visited a new community bringing food and gifts for the children. At the time of saying goodbye a 6-year-old boy approaches her and says thank you very much, please come back soon.

We thank all those who joined our cause and continue to trust us, thank you for helping us to help.

We are grateful to be in this together with you!

Main story of this year
