ANNUAL REPORT

JANUARY, 01 2019 TO DECEMBER, 31 2019

Like every year, the Jangelica's team is excited, since in most countries the Latin American day on January 6 is the day that the children receive their gifts.

A very happy day for all our children.

Which makes us very happy and charges us with energy to continue our cause.

In February 2019 we had the opportunity to meet Andres, a young man from Santa Marta who was fighting cancer.

A young fighter who studied college while working to pay for his studies and support his mother, among his great aspirations to be a professional he wanted to graduate to support his mother since he was the older brother of a family of four siblings, his mother a single mother with many shortcomings.

Jasmany Naranjo says who had the opportunity to get to know him more, who shared messages with him on WhatsApp, I never met him personally but we had a friendship, every day he wrote to me and we talked that when he finished his treatment he would be part of the Jangelica's team that he really wanted of knowing La Guajira, of his aspirations for life.

Unfortunately, the first of July of this year Andrés lost the battle against cancer.

During these years that we have worked together for the same cause, we have had many losses, gifts have been very difficult for our team, we always think that we could have done more, unfortunately we cannot change the past, but if we can do what is in our masses for other children, youth, families for anyone we can support.

This 2019 left us empty in our hearts, but it also gave us the opportunity to expand to reach more people in more countries.

We thank all those who joined our cause and continue to trust us, thank you for helping us to help.

We are grateful to be in this together with you!

Main story of this year
